## OBJECTIVE

Final-year Computer Science Engineering student with experience in software development and machine learning, seeking a software engineering role to apply my skills in real-world projects.

## EDUCATION

**Bachelor in Computer Science Engineering**, Rizvi College of Engineering, Mumbai 2025
**CGPA: 8.3**

**HSC**, St Mary's Junior College, Mumbai - **83.23%** 2020
**SSC**, St Mary's High School, Mumbai - **83.60%** 2018

## SKILLS

**Languages:** Python, C++, Java, JavaScript, TypeScript
**Development:** HTML/CSS, React.js, React Native, Node.js
**Database:** SQL, MongoDB, Firebase
**Cloud:** AWS
**Tools:** Git, Docker, VS Code
**Concepts:** AI/ML, OOP, DSA, Competitive Programming

## PROJECTS

**Parkit** ⚿ (ML, IoT, React Native, Firebase) Mar 2024 - May 2024

- Developed a mobile app for parking reservations with user authentication, booking management, and payment processing.
- Implemented features like parking slot selection, vehicle detail entry, and booking confirmation.
- Utilized Firebase for real-time database management and secure data handling.

**Musync** ⚿ (ML, MERN) Oct 2023 - Dec 2023

- Built a music app using MERN stack with playlist creation, user authentication, and song discovery.
- Integrated a Python-trained ML model for personalized song recommendations.
- Ensured accurate suggestions via efficient model training and evaluation.

## ACCOMPLISHMENTS

- Secured 1st rank in a competitive programming event at my college.
- Ranked among the top 300 in "Code-Uncode," a national coding competition.
- Participated in multiple hackathons and coding events.

## COURSEWORK

- Data Structures & Algorithms
- Database Management System
- Cloud Computing
- Operating Systems
- Machine Learning
- Computer Networks
- Web Development
